<p>Regional Portal Reports comprise every player (committed & uncommitted) from whatever states are selected (refer to chart). The number of transfers is dependent on the states chosen. The price of each state is relative to their player population in the transfer portal.</p>	<p>Basic Portal Reports select players based on Relevancy 1.0. This is a sophisticated formula that takes into the school and eight priority recruitment states provided (with ranging importance). The report delivered will feature only <u>known</u> uncommitted transfers.</p>	<p>Advanced Portal Reports select players based on Relevancy 2.0. The selected players will have additional priority assigned based on position, eligibility remaining, collegiate experience, and former division. The report delivered will feature only <u>known</u> uncommitted transfers.</p>
